MATERIAL SAFETY DATA SHEET

AMMONIUM SULPHATE (Technical grade)

IDENTIFICATION

Product Name:	Ammonium Sulphate
Other Names:	Diammonium Sulphate, Sulphuric acid Diammonium Salt
UN Number:	Not applicable
Dangerous Goods Class & Subsidiary Risk:	Not Applicable
Hazchem Code:	Nil
Poisons Schedule Number:	Exempt
Use:	Fertiliser (Soil Nutrient) water treatment, fermentation, fireproofing compositions, viscose rayon, tanning, food additive.

Physical Description / Properties

Appearance:	White / off white crystals, odourless.
Boiling point/Melting point:	No Data
Vapour Pressure:	Not Applicable
Specific Gravity:	1.77
Flashpoint:	Non flammable
Flammability limites:	Not applicable
Solubility in Water:	Soluble

Other Properties: pH 4.2 - 7

Chemical Name:	CAS number:
Ammonium Sulphate	7783-20-2

Based on the available information, not classified as hazardous according to worksafe Australia.

HEALTH HAZARD INFORMATION

Health Effects:	Not considered to be a health hazard under normal circumstances.
Swallowed:	If swallowed, may cause considerable gastric upset, ulceration or haemorrhage of the G.I. tract and diarrhea. Systemic ammonia poisoning is possible if sufficient absorption occurs.
Eye:	Moderately irritating to the eyes.
Skin:	Mildly irritating to skin. If exposed to frequent and prolonged contact it can cause dermatitis or skin irritations. No effect should occur if the product is promptly washed off.
Inhaled:	If the product is present in high concentrations of airborne dust, prolonged contact may cause irritation to the nose and throat.

First Aid

Swallowed:	If swallowed, dilute with water and immediately induce vomiting. Never give fluids or induce vomiting if the victim is unconscious or having convulsions. Get immediate medical attention.
Eye:	Hold eye open, flood with copious amounts of water for 15 minutes and see a doctor. It is recommended that permanent or mobile eye wash stations be provided when handling this product.

Skin:	A small amount of skin contact is not normally harmful. Remove contaminated clothing and wash skin thoroughly with soap and water. Launder contaminated clothing before re-use.
Inhaled:	Inhalation is not normally harmful. Recovery is rapid after removal from exposure. If symptoms are experienced, remove source of contamination or remove victim to fresh air.
First Aid Facilities:	It is important to have eye irrigation stations in areas where contact with Ammonium Sulphate is a hazard.
Advice to Doctor:	Treat symptomatically. Consult poisons information centre.

PRECAUTIONS FOR USE

Exposure Standards:	No exposure limit has been assigned to this product. Where no specific exposure standard has been assigned, the recommended exposure level for dust in general shall be 10mg/m ³ measured as inspirable dust. The exposure limit is expressed as a time weighted average (TWA) concentration over an eight hour working shift, for a 5 day working week, and is the limit recommended by the supplier of this material.
Engineering Controls:	No special ventilation is required.
Personal Protection:	When using do not eat, drink or smoke. Wash thoroughly before smoking, eating or using toilet facilities. Wear overalls, boots, gloves and safety goggles. Avoid inhaling dust. Where high concentrations of airborne dust is present, respirators conforming to AS1716 should be worn.
Flammability:	Non Flammable.

SAFE HANDLING INFORMATION

Storage and Transport:	Not classified as dangerous goods. Store in a cool place. Store apart from combustible materials, herbicides and fungicides.
Spills and Leaks:	Small spills can be swept for re-use, or can be sluiced away with large quantities of water to drains. Large spills, (>100kg), should be swept up and shovelled into containers for reclamation. Add any broken packages to the container. Sluice down the spill area with large quantities of water. Do not contaminate streams, rivers or water courses. For advice on disposal, telephone the number given on the data sheet.
Fire/Explosion Hazard:	Non flammable. For fires involving this material: Decomposition above 282 deg. C forming ammonia and sulphur trioxide. USE water fog, foam, CO ₂ or dry chemical. Spray water on decomposing mass and fight fire upwind if outdoors. In smoke or fumes wear self-contained breathing apparatus. Do not use more water than is necessary and contain run off. Advise Fire Brigade of nature of hazard.
OTHER INFORMATION:	Stable under ordinary conditions of use and storage.

Disclaimer.
