PRODUCT: ORGANIC AMENDMENT FOR USE IN HORTICULTURAL CROPS AND TURF SITUATIONS.

DOSE RATE: 5-10 kg / 100m²

APPLICATION METHOD: Apply with any standard fertilizer spreader and incorporate into top 10-15 cm of soil. Turf application during renovation and brush into core holes.

COMPONENTS:

FUMAFERT is a soil amendment produced by mixing 66.6% mustard seed meal (*Brassica juncea*), with 33.3% cold pressed Neem Kernel (*Azadirachia indica*).

TOXICITY DATA:

This product is non-toxic.

PHYSICAL DATA FOR PRODUCT:

Boiling point, 760 mm Hg	N/A
% Volatiles expressed in $\mu\text{mole/g}$, air dry basis	115.7
Solubility in water	N/A
Melting point	N/A
Vapour Density	N/A
Appearance, odour	yellow, brown meal musky odour

FIRE AND EXPLOSION DATA:

Flash Point: Non-flammable, chars in the presence of flame.

REACTIVITY DATA:

Hazardous decomposition products: Will release isothiocyanates in the presences of free water.

HEALTH HAZARD INFORMATION:

Inhalation: Non-irritating under normal use conditions. Charcoal filtered mask required if mixing in high concentration with water in enclosed areas.

Ingestion: Non-toxic

Eyes: Non-toxic under normal use conditions. Wear safety goggles if mixing in high concentration with water in enclosed areas.

Skin: Non-irritating

SPILL OR LEAK PROCEDURES:

Handle spillage or waste disposal in the same manner as any dry vegetable product. Sweep up dry material.

MANUFACTURER: Organic Crop Protectants Pty Ltd, 42 Halloran St, LILYFIELD NSW 2040.
